- Malabe, Colombo, Sri Lanka

Professional Summary

Information Technology undergraduate with hands-on experience in full-stack web development, Android application development, REST APIs, and database-driven systems. Skilled in React.js, Next.js, Node.js, Spring Boot, MongoDB, MySQL, Kotlin, and GitHub. Experienced in academic and team-based projects involving authentication, dashboards, user management, payment handling, notifications, and responsive UI design. Strong analytical problem-solving skills with the ability to collaborate effectively in team-based development environments.

Education

Bachelor of Science (Hons) in Information Technology

Sri Lanka Institute of Information Technology (SLIIT)

- Current GPA: 3.55/4.00 | Credits Completed: 68
- Relevant Coursework: Object-Oriented Programming, Data Structures and Algorithms, Database Management Systems, Software Engineering, Web Application Development, Mobile Application Development, Operating Systems, Computer Networks
- Specialization: Information Technology

G.C.E. Advanced Level — Physical Science Stream

Sangamitta Balika Vidyalaya, Galle

2021

Projects

1. Vertex – Smart Campus Facility Management System

April 2026

- Engineered an incident ticketing module that allows users to report facility issues, upload image evidence, and monitor ticket progress.
- Configured technician assignment, ticket workflows, and commenting features to improve maintenance coordination.
- Added two SLA tracking metrics: Time-to-First-Response and Time-to-Resolution for support performance tracking.
- Enhanced issue visibility, response tracking, and maintenance accountability across the smart campus support process.

Technologies: React.js, Spring Boot, REST APIs, MySQL

2. HireSmart – Internship and Job Preparation Platform

March 2026

- Developed a student registration and interview preparation module for a skill-based career preparation platform.
- Built sign-up, sign-in, profile management, and dashboard features for structured student account handling.
- Organized role-based interview quizzes to help users track progress and identify improvement areas.
- Applied database-driven workflows to manage student profiles, quiz records, and preparation progress.

Technologies: Next.js, TypeScript, Tailwind CSS, tRPC, Prisma ORM, SQLite

3. RiyaGuru_LK – Driving School Management System

August 2025

- Built a full-stack MERN platform for student registration, lesson booking, instructor scheduling, and progress tracking.
- Delivered a payment management module supporting full payments and installment-based payment plans.
- Generated instant receipts and automated email notifications for each payment transaction.
- Integrated JWT authentication and 3+ user roles to support secure role-based access control.

Technologies: React.js, Node.js, Express.js, MongoDB, Tailwind CSS, JWT

Links: <https://github.com/SandaniChamoda/RiyaGuru.git>

4. WellNest Habit Tracker – Android Mobile App

October 2025

- Designed an offline Android wellness app for habit tracking, mood journaling, and hydration reminders.
- Added CRUD functionality to manage unlimited habits with add, edit, delete, and tracking options.
- Introduced emoji-based mood logging with 10+ mood options to improve daily self-tracking.
- Integrated scheduled notifications, shake-sensor water logging, and a home-screen widget with real-time progress visibility.

Technologies: Kotlin, Android Studio, SharedPreferences, JSON Serialization

Technical Skills

- **Languages:** Java, JavaScript, TypeScript, Kotlin, Python, C, C++
- **Frontend:** React.js, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive Web Design
- **Backend:** Node.js, Express.js, Spring Boot, REST APIs, tRPC
- **Databases:** MongoDB, MySQL, SQLite, SQL, Prisma ORM
- **Mobile Development:** Kotlin, Android Studio, SharedPreferences, Widgets, Sensors
- **Testing & QA:** Postman, API Testing, Manual Testing, Test Case Writing, Bug Reporting
- **UI/UX:** Figma, Wireframing, Prototyping, User Interface Design
- **Tools:** Git, GitHub, VS Code, Eclipse

Achievements & Awards

Dean’s List / Certificate of Excellence — SLIIT Faculty of Computing

Recognized for academic excellence in Year 2, Semester 2 — 2025.

Finalist, UI/UX Bootcamp – Benchmark 3.0 — University of Colombo School of Computing

Designed and presented an AI chatbot prototype.

Professional Experience

Intern — People’s Bank, Galle Main Street Branch

Feb 2023 – Aug 2023

- Assisted customers with digital banking registrations, mobile app setup, and troubleshooting, contributing to a 15–20% increase in digital service adoption.
- Processed customer records, account details, and transaction-related data using internal banking systems with 99% accuracy.
- Supported front-office operations and customer inquiries, assisting 100+ customers daily in a professional banking environment.

Certifications & Professional Training

MongoDB Data Modeling Path — MongoDB	May 2026
Python for Beginners — University of Moratuwa	Dec 2025
AI/ML Engineer – Stage 1 — SLIIT Faculty of Computing	Jan 2026
DesignX Workshop Certificate — University of Colombo School of Computing	Jan 2026
Computer Hardware Basics — Cisco Networking Academy	Jan 2026
Certificate in Human Resource Management — IMS Campus	Jun 2022

Leadership & Activities

- Active Member, Leo Club of SLIIT — Contributed to community service and team-based events.
- Member, IEEE Student Chapter — Participated in technical learning and emerging technology sessions.
- Volunteer Teacher & Exam Invigilator — Supported teaching activities and examination supervision.
- School Prefect, Sangamitta Balika Vidyalaya — Assisted with school discipline and event coordination.

Core Skills

- Analytical Problem Solving
- Team Collaboration
- Clear Communication
- Adaptability to New Technologies
- Attention to Detail

Languages

- English
- Sinhala
